Musical Wheeling extends congratulations to Miss Gertrude Reister, contralto, and Miss Elsie Gundling, 86prano, on so conscientiously having studied the prescribed vocal music course at St. Joseph's Academy, that the faculty could bonor itself with the bestowal of gold medals. Both young ladies have beautiful voices, and give ered from the loss of the Hughes and promise of coming rapidly to the front, Zulauf voices, and any opportunity to have dispinyed throughout their student career a sincere devotion to music art, by continued connection with the Woman's Musical Club, of this city, the only opportunity given Wheeling professionals and amateurs to teach and learn by example. The names of Miss Reister and Miss Gundling will now as solo members of the Woman's Club, be so enumerated in the American Musical Directory of club memberships, for which a list for 1900 has been asked from the secretary of The club management delights to add these, for while the choral club proper makes a good showing with its seventy names this season, the ros-ter of women solvists in Wheeling is not long. The list asked for embraces only members of the Women's Club and therefore a few names worthy to be enrolled will be missing when read by Wheeling peopic.

These victories together with President Power's decision that Wheelngs recent failure to appear at Columbus does not constitute a forfelt, gave the Stogies an elegant upward boost, and as Fort Wayne lost to the Daytong the locals go into the lead again, with Daytor and the Hoosiers tied for second place. Yesterday's games were essed by the largest Friday crowd of the season, including many ladies.

Elaborate preparations are being made by the Port Huron (Mich.) Convention and Excursion League for the construction of one mile of macadam road on Twenty-fourth street from Griswoill street south, on the occasion of the Good Roads Congress and L. A. W. festival, which will be held in Port Huron July 2, 3, 4 and 5. E. G. Harrison, government road expert, has arrived in Port Huron for the purpose of superintending the construction of the road. He is sent there by the road inquiry office of the department of agriculture. F. F. Rogers, ex-city engineer, who has spent the last month in Ohlo, has arrived in Port Huron for the purpose of making the preliminary surveys and plans for the road. J. L. Starkweather, of Romeo, and a gang of men are now at work getting the road bed in shape. Carloads of stone are being hauled from towns along the Grand Trunk Railway. Already the committees having charge of the work have received assurances that different concerns will send machines to Port Huron for the purpose of crushing stone. Mr. Harrison, the expert, on the days of the congress, will show to the people who go to Port Huron the most practicable and cheapest way to build a country road.
